

Policy 4: Administration of First Aid

RATIONALE:

First aid can save lives and prevent minor injuries or illnesses from becoming major. The ability to provide prompt basic first aid is particularly important in the context of an early childhood service where Educators have a duty of care and obligation to assist children who are injured, become ill, or require support with administration of medication.

PURPOSE: Our Service has a duty of care to provide and protect the health and safety of children, educators, and visitors of the Service. This policy aims to support educators to:

- Preserve life
- Ensure the environment is safe and other people are not in danger of becoming ill or injured
- Ensure that ill or injured persons are stabilised and comforted until medical assistance intervenes
- Relieve pain if possible
- Monitor ill or injured persons and promote recovery
- Provide immediate and effective first aid to children or adults
- Apply additional first aid if the condition does not improve

'First aid can reduce the severity of an injury or illness and in extreme cases, could mean the difference between life and death.' (Safe Work Australia).

SCOPE: This policy applies to children, families, staff, management, and visitors of the Service.

IMPLEMENTATION: First aid is the emergency aid or treatment given to persons suffering illness or injury following an accident and prior to obtaining professional medical services if required. It includes emergency treatment, maintenance of records, dressing of minor injuries, recognition and reporting of health hazards, and participation in safety programs. Legislation that governs the operation of approved children's services is based on the health, safety and welfare of children, and requires that children are protected from hazards and harm.

Management is responsible for:

- taking every reasonable precaution to protect children at the Service from harm and/or hazards that can cause injury
- ensuring that at least one staff member or one nominated supervisor who holds a current ACECQA approved first aid qualifications, asthma and anaphylaxis management training is on site
- ensuring a risk assessment is conducted prior to an excursion or regular outing to identify risks to health, safety, or wellbeing and specifying how these risks will be managed and minimized
- ensuring that first aid training details are recorded and kept up to date on each staff member's record
- ensuring there is an induction process for all new staff, including casual and relief staff, that includes providing information on the location of first aid kits and specific first aid requirements and individual children's allergies and individual medical management plans
- ensuring that parents are notified when practicable or within 24 hours if their child is involved in an incident, injury, trauma or illness at the Service and that details are recorded on the Incident, Injury, Trauma and Illness Record and in the first aid log
- ensuring a serious incident, injury, trauma or illness at the Service is logged in IRMS (incident report management system) within 12 hours.
- ensuring that staff members are offered support and debriefing subsequent to a serious incident requiring the administration of first aid
- ensuring a resuscitation flow chart is displayed in a prominent position in the indoor and

outdoor environments of the Service

A Nominated Supervisor/ Responsible Person will:

- maintain a current approved first aid qualification
- support staff when dealing with a serious incident and/or trauma
- provide and maintain an appropriate number of up-to-date, fully equipped first aid kits that meet Australian Standards.
- provide and maintain a transportable first aid kit/s that can be taken to excursions and other activities
- monitor the contents of all first aid kits and arrange replacement of stock, including when the use-by date has been reached
- ensure safety signs showing the location of first aid kits are clearly displayed
- ensure that all educators approved first aid qualifications, anaphylaxis management training and emergency asthma management training are current and meet the requirements of the National Act and National Regulations and are approved by ACECQA.
- provide training for the administration of an auto-injector device annually and document on staff files
- keep up to date with any changes in the procedures for the administration of first aid
- contact families immediately if a child has had a head injury whilst at the Service
- ensure that appropriate documentation is being recorded by the Nominated Supervisor / Responsible Person regarding incidents, injury, trauma, and illnesses and the administration of first aid. Documentation of the following must be recorded:
 - * name and age of the child
 - * circumstances leading to the incident, injury, trauma, or illness (including any symptoms)
 - * time and date
 - * details of action taken by the service including any medication administered, first aid provided or
 - * medical personnel contacted
 - * details of any witnesses
 - * names of any person the service notified or attempted to notify, and the time and date of this
 - * signature of the person making the entry, and time and date of this.

Educators will:

- implement appropriate first aid procedures when necessary, by adhering to the Service's Administration of First Aid Procedure
- maintain current approved first aid qualifications, and qualifications in anaphylaxis management and emergency asthma management as required (Safe Work Australia recommends first aid qualifications should be renewed every three years)
- refresh their CPR and administration of an auto-injector device training at least annually
- ensure that all children are adequately supervised while providing first aid and comfort for a child involved in an incident or suffering trauma
- ensure that the details of any incident requiring the administration of first aid are recorded on the Incident, Injury, Trauma and Illness Record accurately.
- conducting a risk assessment prior to an excursion, regular outing or when providing regular transportation of children to identify risks to health, safety, or wellbeing and specifying how these risks will be managed and minimised (NB: risk assessment for a regular outing or regular transportation is required at least annually) [Reg. 102B, 102D (4)]

Parents will:

- sign Service records of accidents or injuries that have occurred, acknowledging they have been made aware of the incident and the first aid that treatment that was given to the child
- provide the required information for the Service's medication record
- provide written consent (via the enrolment record) for service staff to administer first aid and call an ambulance if required
- be contactable, either directly or through emergency contacts listed on the child's enrolment record.

First Aid Kit

The Approved Provider of the Service will ensure that first aid kits are kept in accordance with National Education and Care Service Regulations (regulation 89). All First Aid Kits at the Service must:

- be suitably equipped
- not be locked
- not contain paracetamol
- be suitable for the number of employees and children and sufficient for the immediate treatment of injuries at the Service
- be easily accessible to staff and educators
- be constructed of resistant material, be dustproof and of sufficient size to adequately store the required contents
- be capable of being sealed and preferably be fitted with a carrying handle as well as have internal compartments
- contain a list of the contents of the kit
- be checked every 3 months using the First Aid Kit Checklist to ensure the contents are as listed and have not degraded or expired
- have a white cross on a green background with the words 'First Aid' prominently displayed on the outside
- be easily recognisable
- be easy to access and if applicable, located where there is a risk of injury occurring
- be taken on excursions
- be maintained in proper condition and the contents restocked as required.

Our First Aid delegated individual responsible for maintaining all First Aid kits at the Service is:

Robyn Rawlins

This individual is responsible for conducting and maintaining each first aid kit by complying with the First Aid Checklist, certifying each kit has the required quantities, items are within their expiry dates, and sterile products are sealed. This will occur after each use or if unused, at least annually. Individuals along with the Nominated Supervisor will also consider whether the first aid kits and components are appropriate and effective for the Service's hazards and the injuries that have occurred. If the kit requires additional resources, these individuals will advise and follow up with the Nominated Supervisor.

Our Service will display a well-recognised, standardised first aid sign to assist in easily locating first aid kits. Signage will comply with AS 1319:1994 – Safety Signs for the Occupational Environment.

First Aid Kit Checklist

Our Service will use the Checklist provided by Safe Work Australia's First Aid in the Workplace Code of Practice. <https://www.safeworkaustralia.gov.au/doc/model-code-practice-first-aid-workplace> We will determine the need for additional items to those in the checklist, or whether some items are unnecessary, after analysing the number of children at our Service and what injuries children or adults may incur. We will review our incident, injury, trauma and illness records to assist us in making an informed decision about what to include.
