

2023

Quality Improvement Plan Summary

Plympton South Kindergarten

Service approval number: SE-00010794

Goals	Challenge of Practice	Success Criteria
Goal 1: To improve children's ability to communicate mathematical ideas and concepts	If we plan for and provide daily shared reading experiences with Book Talk strategies using texts which investigate mathematical ideas and concepts then we will improve children's ability to express their mathematical thinking	Success Criteria (what children know, do, and understand): Ongoing analysis of formative assessment will show that children are expressing mathematical ideas and concepts through: <ul style="list-style-type: none"> - mathematical language - reciprocal shared conversations - predicting, generalising and hypothesising - asking questions - answering questions

National Quality Framework Priorities	Key steps
Communication with families re children's engagement and learning outcomes in our curriculum	1. Continue with fortnightly curriculum update in the digital newsletter 2. Research implementation of Seesaw or online communication with families to support discussion of learning at home with the children and responsive feedback from families AND/OR sharing book with families via SMS with a question posed-link to PQIP 3. Linking child's goals with planning for learning and documentation- development of more indepth goals for each child across the curriculum- P/ship focus (numeracy, literacy PA) 4. parent conversations at the end of term 1 and during Term 3;
Improvement of our critical reflection processes as a site	-Educator PD around critical reflection -critical reflection of children's learning and development as individuals and in groups to inform our programming and planning - critical reflection of educator practice

Government of South Australia
Department for Education
