

## **Illness and Medication**

If your child is unwell, it is in their and others best interests to remain at home until fully recovered. This will help stop the spread of infection. Please let staff know if your child has an infectious illness and/or if your child is going to be absent by phoning the kindergarten.

A Medical Authority form completed by a Doctor must accompany any medication a child required. If your child requires medication for illness, we recommend you give a dose before and after kindergarten. However, if your child is ill and requires medication, it is best to keep them home.

Please ensure staff are aware of any allergies or medication conditions your child may have. This information needs to be on their enrolment form. It is very important for staff to have up to date information on all children with Asthma or allergies (this must include a written plan from the Doctor) to ensure we are able to care for these children in the best possible way.
