

Vision

A welcoming, inclusive, safe and vibrant community where children and families feel valued, supported and connected.

Philosophy

We believe;

Aboriginal and Torres Strait Islanders culture, language and history is important for us all to understand and respect.

Every family belongs.

Parents and/or primary carers want to be the best they can for their children.

Relationships and affirming experiences are crucial to a sense of belonging.

Communication is the foundation for relationships.

Children are confident and capable learners who learn best through play.

We respect children as capable learners and view them as global citizens.

We believe that evidence-based research and critical reflection promotes high quality education and care.

Therefore we;

We endeavour to include Aboriginal and Torres Strait Islander perspectives across a broad range of environments and experiences.

We celebrate and explore children's cultural identity and support children where they are at in their learning and development.

We provide information and experiences to foster positive relationships.

We build trusting relationships.

We support and collaborate with children and families to develop confidence in communicating with one another.

We create a safe and engaging play environment that provides opportunities for children to follow their own interests and build on their strengths.

We provide opportunities for children to connect with their community and engage in sustainable practices.

We regularly engage in ongoing professional learning and reflect critically on our practices.

So that;

- Families are involved and promote their child's development.
- Children are active participants in their ongoing learning.
