Program Key:

Disability Support

Parenting Group

Family Health & Wellbeing focus

Parents and Kids

Child Development

Community Engagement

Hackham West Children's Centre is a dynamic centre offering high quality care and education, health information and services as well as family support services for young children and their families.

Our dedicated team works in close partnership with families and a range of government, non-government and community agencies to provide programs which nurture and support healthy development and promote positive learning and life outcomes for all children and families.

We support mums, dads and carers through the early years parenting stage and offer a diverse range of opportunities to engage with other parents and to get support to cope with the challenges and delights of raising young children.

We have a variety of programs and events, including Child Care, Kindy, playgroups, health services and family and community programs. We share our services over 2 main locations:

At the **Children's Centre on Vintners Walk** we have our Child Care, Kindy/preschool, Family Playgroup and Learning Together Programs.

At **Hackham West R-7 School** we have our **Children's Centre Unit** where we hold our parenting courses and all other groups. We also connect with the **Hackham West Community Centre** for shared programs.

Participating in both the Children's Centre and the Children's Centre Unit helps you to connect with services for adults only, adults and children together as well as just for children.

We are excited to be part of this community and invite parents, community members and local organisations to get involved with the ongoing development of our centre.
