

# *Our Philosophy*

We believe that responsive relationships with children and strong partnerships with families enable children to thrive, building a strong sense of belonging, trust, respect and confidence. Responsively planned learning environments and interactions best support children's learning through play allowing children to lead their own learning, develop their own identities and lifelong skills for learning.

We acknowledge and respect the Kurna People as the traditional custodians of the land we play, learn and grown on.

At Hamley Bridge Kindergarten we believe:

- Children learn through play
- Children feeling safe and secure is essential for learning
- Our curriculum planning reflects each child's unique strengths, culture and interests
- In developing trusting relationships with families and working together to support their child
  - All children have a right to learn
  - Children have a voice in their learning

**Play. Learn. Explore. Grow**
