

Health and Safety

Every Child's health and wellbeing is import to us!

Healthy eating: Healthy eating is encouraged and we ask that you do not send 'sometimes food' eg: lollies, fruit snacks that are high in sugars and look like lollies, chips and chocolate). Healthier options are fruit, veggies, cheese yogurt, salad wraps etc

We are a nut aware preschool and ask you not to pack foods which contain nuts. We will notify if we have any children with severe allergies of any kind associated with food.

Illness and absences: Please let us know if your child is going to be absent from preschool, whether for sickness, holidays, or family reasons. We are guided by the Australian Health Commission guidelines when children have contagious illnesses.

Vomiting and/ or diarrhoea –Please keep your child home for 24 hrs from the last symptom. If in doubt, please see a doctor, pharmacist or talk to us.

Medications: We cannot legally administer any medication without your own or your doctor's written consent. A Medical Health Care Plan is required for children who have chronic illnesses/conditions such as asthma, food allergies etc

Please note that we cannot administer any non-prescription medication such as Panadol, cough medicine etc. If your child is unwell enough to require these, then they should not be attending preschool.

Sun and Hot Weather Safety: Our Sun Protection and Hot Weather policy states all children, educators and volunteers to wear hats terms 1 and 4. Please send a broad brimmed or legionnaire hats and ensure your child is wearing shoulder covering clothes.

Please apply sunscreen to your child before attending preschool and children will reapply when required. If your child requires a particular brand please bring to preschool.
