**Week 11 - Early finish 2pm - Fri Apr 12th**

## Nearly halfway through the term!

Wow! What capable, competent and confident learners we have in 2024!

We have all been getting to know each other and build relationships with other children and educators.

We have had to deal with some very hot weather (with one broken air conditioner), which all the children have done very well. It helps when we have lots of water play!

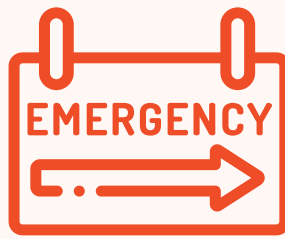

If your child has borrowed spare clothes from Kindy, please wash and return them as soon as you can.

Please RSVP for the Family BBQ night using the link in the email that you were sent if you plan on attending.

**Learning at Kindy!**

During Week 4 the children practiced what to do if we ever have an emergency evacuation.

The children were able to identify different situations when we might need to evacuate - like if there is a fire inside.

We use a whistle for emergency situations. The children need to stop what they are doing and look to an educator straight away if they hear the whistle. Educators will be pointing and saying one of 3 things: inside, school gate or road gate.

We practice this twice every term.

On Wednesday sessions we visit the Kadina Library. Lynn or Greta sing some songs and reads stories with us.
