

Centre Management

Kalaya has a Management Committee of parents from preschool and child care together with centre staff representatives. The Management Committee makes decisions about financial management, development of the outdoor learning areas and maintenance of the building and grounds.

The Management Committee also has an important role in developing and reviewing Centre philosophy and policies. No experience is necessary to join the Management Committee, just interest, enthusiasm and commitment. The Director or any member of the current committee will be happy to give more information to any interested parties as we encourage family participation and attendance at Kalaya.
