

Healthy Eating Policy

The National Health and Medical Research Council (NHMRC) has published dietary guidelines for Australian infants, children and adolescents, adults and older people. These guidelines provide recommendations for healthy eating not only to reduce the risk of diet-related disease, but also to improve the community's health and wellbeing (Eat Well SA, 2008). It is recognised that early childhood settings are a critical part of the social environment that shapes eating behaviour and can play a large role in ensuring that health-enhancing eating behaviour is learned, practised and supported.

The Kirton Point Children's Centre has a commitment to enabling children and families to develop their capacity for healthy growth and development and for healthier futures. As such, the Kirton Point Children's Centre will be responsible for promoting good nutrition and healthy lifestyles for children and families.

Kirton Point Children's Centre will promote and encourage healthy eating throughout all Children's Centre activities.

NATIONAL QUALITY STANDARDS: Quality Area 2: Children's Health & Safety

Standard 2.1.3: Healthy Eating and physical activity are promoted and appropriate for each child.

EARLY YEARS LEARNING FRAMEWORK: Outcome 3: Children have a strong sense of wellbeing

Children take increasing responsibility for their own health and physical wellbeing

Managed by:	Director: Pam Stanley
Review Date:	Term 1, 2021
Presented to Staff:	Whole Centre Staff Meeting 2/3/2021
Presented to Gov. Council	Governing Council Meeting 13/5/21
Next Review Date:	Term 1, 2022

REVISION RECORD

Date	Revision description
Term 1, 2016	Updated to include change in leadership, change of format
Term 3, 2016	Updated titles of positions, changes to 5.10 as per advice from Legal and Risk
Term 2, 2017	Changed wording re red foods, removing allergy info already covered in allergy and anaphylaxis policy, removed giving out copy of Right Bite guidelines as KPCC has developed own sheet based on these recommendations.
Term 1, 2018	Removed 5.8, changed wording in 5.8, 5.12, 6.3 and Section 7
Term 1, 2019	Minor edits of wording and grammar
Term 1 2020	Changed to new template and minor wording edits
Term 1 2021	Minor edits to reflect COVID recommendations (5.3), clarification around treats being brought to centre (5.9), and that staff are to read and sign children's health plans (5.11)

1. TITLE

Healthy Eating Policy

2. PURPOSE

The Purpose of the Healthy Eating Policy is to promote and educate healthy lifestyles amongst families and children. The Healthy Eating Policy ensures that the health and wellbeing of children is safeguarded and promoted, in line with the National Quality Standards for Early Childhood Education and Care and School Age Care.

3. SCOPE

The Healthy Eating Policy applies to all staff and programs within the Kirton Point Children's Centre, even if the program is facilitated or funded by an external organisation.

4. OBJECTIVES

Healthy eating is fundamental to good health throughout life for all people. It underpins healthy growth and development, contributes to positive mental health and wellbeing and quality of life, and plays a role in preventing disease and disability.

Appropriate nutrition can lead to improved cognitive development, attention span, work capacity, classroom behaviour and attendance at preschool. Establishing healthy eating habits at a young age provides a critical foundation for good eating patterns in adult life with health, social and financial benefits to individuals, families and society.

Learning about healthy lifestyles, including nutrition, is integral to wellbeing and self-confidence. As children become more independent they can take greater responsibility for their own health. Good nutrition is essential to healthy living and enables children to be active participants in play. Early childhood settings provide many opportunities for children to experience a range of healthy foods and to learn about food choices from educators and other children (EYLF 2009).

5. POLICY DETAIL

- 5.1 Kirton Point Children's Centre is a breastfeeding friendly environment. All staff are to be aware of the importance of breastfeeding and talk about breastfeeding as 'normal'. Comfortable spaces are to be made available when possible. The Kirton Point Children's Centre will adhere to breastfeeding friendly guidelines as per Australian Breastfeeding Association guidelines.
- 5.2 All food and drink supplied during Children's Centre activities, inclusive of adult-only settings, should comply with the NHRMC Dietary Guidelines and/or the Right Bite Food and Drink Spectrum. Foods that do not comply may be offered as part of a special event (ie no more than 2 times per term).
- 5.3 All adults and children are expected to use effective hand washing techniques when handling or consuming food. Hand soap and accessible facilities are to be made available throughout the Centre.
- Children are required to wash their hands before consuming food, including shared fruit at mat-time, lunch times and unplanned snacks. Children must also wash their hands prior to a learning activity that involves the handling of food.
- Adults are to use safe food handling techniques, in line with COVID 19 recommendations, and avoid cross contamination of cooked and raw foods, by
- washing and drying hands thoroughly before handling food and frequently during work
 - avoiding being near food when unwell (including coughing and sneezing)
 - changing gloves when torn, after handling raw foods or changing tasks
 - keeping benches clean
- 5.4 Kirton Point Children's Centre will support the frequent drinking of fresh, clean tap water. Water to be available for adults and children at all times.
- 5.5 Children will be educated about healthy food choices in cooking for Kid's Cafe and other cooking experiences. (refer to Right Bite Food & Drink Spectrum).
- 5.6 Kirton Point Children's Centre will foster positive communication and relationships with families to support healthy eating choices for children and their families. Families will be provided with opportunities to learn about the importance of healthy eating and physical activity in young children including education about the NHRMC Dietary Guidelines for Children and Adolescents and the Right Bite Food and Drink Spectrum.
- 5.7 Children will be given learning opportunities throughout the Centre to develop practical food skills related to growing, selecting, storing, preparing, cooking and serving food.
- 5.8 Children are encouraged to eat snacks and lunch in a supervised social setting to enhance positive food experiences and reduce the risks of choking.

- 5.9 Birthday cakes and other treats (eg Christmas candy canes), are not to be brought to the Centre as part of children's birthday celebrations, as some children may have food allergies. We recognise birthdays are very special occasions for children and these are acknowledged in other ways by staff. Parents are welcome to come into the centre to do an activity with their child that has been pre-arranged with staff.
- 5.10 Wherever possible, healthy eating learning programs should be inclusive of the socio-economic, cultural and spiritual perspectives within the Port Lincoln community.
- 5.11 Where a child has specific food-related health issues, such as diabetes, anaphylaxis or cystic fibrosis, a health care plan must be completed (as per Health Support Planning Guidelines), and read and signed by staff. Specific accommodations may be made for these children. Adults, including staff with similar health care requirements, should discuss their needs with the program facilitator and/or the Director, where required.
- 5.12 To reduce the risk to children who have been diagnosed as at risk of anaphylaxis, no nuts, nut-based products or items in which nuts or identified foods are an ingredient, are to be brought to the Children's Centre. This includes in lunch boxes or shared food (refer to Allergy & Anaphylaxis Management policy).
- 5.13 For children with additional needs, where food is a central part of a behaviour, sensory or communication plan, this should be clearly documented as part of the child's learning plan and/or One Plan. Staff will also work closely with the family and other services to, where possible, introduce healthier alternatives to the child.

6. STAFF RESPONSIBILITIES

- 6.1 Staff and visiting professionals should, at all times, adhere to this Policy, and be aware of their role as models for the broader community.
- 6.2 Staff are responsible for the implementation of the policy and for ensuring visiting professionals are aware of the policy details.
- 6.3 All staff are to encourage the consumption of foods compliant with the Right Bite Food and Drink Spectrum and the NHRMC Dietary Guidelines, including limiting but not excluding 'red' foods.

7. MONITORING, EVALUATION AND REVIEW

The Director will monitor the implementation of the policy and be responsible for ensuring all staff are aware of their responsibilities.

The Director, and relevant program staff, will also be responsible for ensuring families are aware of the policy.
