

HOME TO PRESCHOOL TO SCHOOL TRANSITION

It is the policy of the School to ensure the transition from home to Preschool to School is as smooth as possible for children and parents and caregivers.

We encourage the involvement of parents and children at Playgroup/Occasional Care as this opportunity provides time for your child to become familiar with the Preschool/School environment.

In the term before children commence preschool, children are invited to attend pre-entry sessions, this is dependent upon the number of enrolments and staffing. Contact will be made with parents inviting them to attend an information session for transitions from home to preschool and preschool to school, further arrangements can be made with the preschool teacher and principal if required.
