

Support Services

If you have any concerns about your child's learning and development, the One Tree Hill Preschool staff can support you to find the most appropriate service provider to assist you e.g. Speech Pathologist, Occupational Therapist, Early Intervention Coordinator etc.

If you have any assessments or reports from health professionals in relation to your child's health or development, it is important that the staff have copies of these to assist them in planning for your child while they are at preschool.

The Child and Youth Health (CAYHS) Nurse visits the preschool twice a year (usually in term 1 and 2). All families are encouraged to make an appointment.
