

Health and wellbeing

Emergency & Accident

Unfortunately accidents do happen. If one occurs with your child, & it is minor, we will attend to it with TLC, record it in our records, leave a slip in your child's pocket and ask that you sign the First Aid/Sickness Register. Obviously with more serious injuries, we will call you or your emergency contact person.

Communication

All childcare children will receive a communication book which will help both parents & Educators to record information. We will always try to talk to you at drop off & pick up, this book is just a handy backup.

Mandatory Notification

Children's needs & care are highly important. The Educators at our Centre are mandated notifiers & as such are required to report any suspicion of child abuse or neglect. If you have concerns, please talk to the Director, so together we can keep all children safe.
