

Tintinara Preschool Philosophy

*A*t Tintinara Preschool we believe each child is a unique individual with their own strengths. We recognise the child's family as their first teacher. We value a shared partnership of learning that respects family values, beliefs and perspectives. Children can develop confidence, creativity, resilience, cooperation and problem-solving in a safe, secure and supportive environment. The play-based Preschool quality learning environment encourages children to develop the skills to become life-long learners.
