

EARLY YEARS LEARNING FRAMEWORK (EYLF) CURRICULUM

The staff at Warradale Kindergarten provides a program for the children based upon the Early Years Learning Framework (EYLF) which is used by the Department for Education (DfE) Preschools and all Early Years sites in Australia. We have developed a broad programming format this is displayed on the board beside the entrance. Further information about the EYLF is included in newsletters and in your child's portfolio. A copy of the EYLF is available for parents to borrow from the library.

Please discuss any questions you have with the staff. We are always grateful for parent's comments and ideas. If you can assist with any area of the program, we would welcome your help.
