

CHILDREN WITH ADDITIONAL NEEDS:

Children requiring specific support for participation in the program have the opportunity to access additional support. The Director, teacher and support worker are responsible for writing an individual learning program and addressing the areas of need. A Psychologist, Social Worker, Special Educator and Speech Pathologist are available through Community Health Connection. Families are welcome to raise any queries about their children with the Director or vice versa, and an application for additional support can be completed with family permission.

COMMUNITY LINKS:

Yorke town Community Children's Centre is integrated with the wider Yorke town Community with links through organisations such as:

CHILD AND YOUTH HEALTH Preschool children are developmentally screened by the local Child and Youth Health staff. Details will be provided to you closer to the event we also like to advertise and encourage you attending at their parenting workshops.	1300 364 100 1300 733 606 88532 060
